Hello All,

As mentioned in my cancellation of the meeting, I am sending out Amber's questions on the briefing along with my responses. Some of these need to be better informed by Robin's research into the history of the treated article exemption. We have a meeting with her Monday of next week to discuss these questions. Some of Amber's other questions are about simplifying the language to merge the interpretation changes and the actual regulation amendments since many of their pros and cons are similar, but I am not sure how that would work. If you have any questions about any of my comments before our next meeting please let me know.

Thank you,  
Quinn
